

Cannon IV Professional Installation Services Network Setup for Imaging & Printing with HP

Go ahead and leave it to the professionals.

Integrate HP printing and multifunction products into your imaging and printing environment quickly and without disruption.

Get the most from your HP technology — right from the start.

You want and expect top performance from your HP imaging and printing products right from the start. That's why it's important to have Cannon IV service engineers perform installation services for your HP printers, multifunction printers (MFPs), scanners, and large-format printing devices. Cannon IV offers installation services that include onsite installation and network setup of printing products by a Cannon IV-employed service engineer. Deliverables by our professional staff include the assembly of all HP accessories, hardware verification, network setup, and basic orientation for your organization's key operator.

Available for color and monochrome HP LaserJet printers, multifunction and business inkjet products, scanners, and HP Designjet products, Cannon IV Installation Services with Network Setup for Imaging and Printing can help you make sure that your printers are installed properly, with all features operating efficiently — ready to make an important contribution to your day-to-day business operations.

Benefits

- **Impressive results** - Fast, efficient, cost-effective installation conserves your staff resources and time for other important IT functions.
- **Reduced complexity** - Expert printer/scanner network setup can simplify your IT and imaging and printing infrastructure environment.
- **Minimum disruption** - Cannon IV specialists are trained to help keep installation activities from impacting your business operations.
- **Quality performance** - A Cannon IV-employed Service Engineer makes sure that products are installed and set up properly for optimum performance right from the start.

Comprehensive service with outstanding results

Cannon IV will work closely with you and your staff to develop and coordinate a schedule that outlines tasks and resources. Cannon IV helps identify necessary activities, a timeframe for each activity, and the responsible party — Cannon IV, your staff, or other vendors. The result is a smooth, hassle-free, disruption-free installation process.

Details on reverse.
