

Every year through Flo-Tech's **EnVision™ Recycling Program**, Flo-Tech customers help to protect our environment saving hundreds of thousands of quarts of oil from being burned and over 100 tons of hazardous waste from entering our landfills. Every cartridge counts. Each toner cartridge recycled through this program prevents 3 quarts of oil from being burned and prevents 2.5 pounds of hazardous waste from finding its way into our overburdened landfills.

To recycle Flo-Tech brand cartridges:

Flo-Tech provides a **pre-paid return shipping label** on every Flo-Tech Brand cartridge. Simply place your empty cartridge back into a Flo-Tech toner cartridge box. The pre-paid UPS return shipping label is located under the packing slip on the side of the box. Once the box is sealed up, give it to the UPS driver the next time they deliver. Additional prepaid return shipping labels are available through customer service at **1-800-213-1112**.

Flo-Tech encourages our customers to recycle **all** their cartridges. Please visit the links below for information on recycling OEM cartridges:

Canon

Visit this link to print a pre-paid return shipping label for eligible Canon supplies. Instructions for both individual cartridge returns and bulk returns are available. Registration for this program is required. You can register at the link below.
